1. This Disclosure Statement has not been filed with the Financial Services Regulatory Authority of Ontario (FSRA). Neither FSRA nor any other authority of the Government of Ontario has reviewed or approved the completed Disclosure Statement.
2. All mortgage investments carry a risk. There is a relationship between risk and return. In general, the higher the rate of return, the higher the risk of the investment. You should very carefully assess the risk of the mortgage transaction described in this Disclosure Statement if applicable and in the supporting documentation before making a commitment.
3. Syndicated mortgages (defined as more than one investor/lender) may carry additional risks pertaining not only to the risk of default but also to the risks associated with participating in a syndication and the financing of real estate transactions.
4. You should consider inspecting the property upon receiving information on the subject investment.
5. This mortgage investment is not insured by the Government of Ontario or any other investor protection fund.
6. This mortgage investment cannot be guaranteed by Strata Vesta Corp. (known as, 'Strata Vesta'). If you are not prepared to risk a loss, you should not consider mortgage investments.
7. If you are one of several investors in a syndicated mortgage, you may not be able to enforce repayment of your investment on your own if the borrower defaults.
8. You should ensure you have sufficient documentation to support the property valuation quoted in this Disclosure Statement. The property value may decrease over time, including the period between the date of the most recent appraisal and the date you complete the transaction. A decline in property value may also affect the return and/or value on your investment in the event of a default in payments under this mortgage.
9. The mortgage administrator, if applicable, cannot make payments to you except from payments of principal and interest made by the borrower under the mortgage. Therefore, the mortgage administrator cannot continue mortgage payments to you if the borrower defaults.
10. If you want to withdraw your money before the end of the term, a new investor/lender may be required and there is no assurance that there will be a market for the resale or transfer of the mortgage. In this event, Strata Vesta will find a replacement for your position in the investment.

11. This Disclosure Statement is not intended to provide a comprehensive list of factors to consider in making a decision concerning this investment. There may be additional risks to the investment. You should satisfy yourself regarding all factors relevant to this investment before you commit to invest.
12. All information regarding Strata Vesta's investor contributions and positions is highly confidential. The disclosure of such information to an outside will result in legal action.

I consent to the stated provisions in this Disclosure Statement.
